# DILMITH WATHSALA

WEB DEVELOPER/UI DESIGNER

## PROFILE

A motivated and dedicated undergraduate IT student seeking an internship to gain practical experience and contribute to innovative projects. Eager to apply my technical skills and passion for software/web development in a challenging and dynamic environment.

## ACADEMIC PROJECTS

### • Vehicle Rental System (IWT Project)

Created Login Register pages using HTML, CSS, and PHP.

### • Online Vegetable Buying and Selling System (ITP Project)

Created CRUD Operations of user's payment function using 'MERN' stack.

### • Riyasewana Website Redesigned UI (HCI Project)

Redesigned user interfaces of the site using Figma (Contact Us, View Ads, and My Favorites pages)

### • Preference-based Personalized Tour Planner (ITPM Project)

Created the admin dashboard & customer payment function using the 'MERN' stack.

## INDIVIDUAL PROJECTS

### • Bank of Ceylon banking app UI redesign

Redesigned Bank of Ceylon 'B' app user interfaces using Figma.

### • Fruits-Vegetables-Buying-App-UI

Designed user interfaces for a vegetable buying app using Figma.

### • Portfolio

I created a portfolio. Using HTML, CSS, and JS.
